**Listing of Claims:**

Claims 1-14 (previously cancelled)

Claim 15 (currently amended): An enclosure comprising:

a cavity defined in a surface;  
a lid sized to cover said cavity;  
support means inside said cavity positioned to support at least part of one edge of said lid and adjacent parts of adjacent edges of said lid, said lid being pivotable downwardly about flat terminal portions of said support means under downward pressure on a region of said lid opposite said one edge; and  
a securing means for releasably engaging said lid in a position across said cavity.

Claim 16 (previously added): The enclosure as claimed in claim 15, wherein said lid is flush with said surface when said lid is supported by said supporting means.

Claim 17 (previously added): The enclosure as claimed in claim 16, wherein said support means is a raised lip around one edge and a portion of adjacent side edges of said cavity.

Claim 18 (previously added): The enclosure of claim 16, wherein said securing means is attached to said support means.

Claim 19 (previously added): The enclosure as claimed in claim 18, wherein said securing means is a magnet, and wherein at least a portion of said lid engaging said securing means is ferro-magnetic.

Claim 20 (previously added): The enclosure as claimed in claim 15, wherein said terminal portions of said support means are approximately halfway along said adjacent edges.

Claim 21 (previously added): The enclosure as claimed in claim 15, wherein said cavity is rectangular.
